12. What is working?

- System partners are being heard
- Pretty well-rounded group with representatives from many
- The current NE FYSPRT meeting is very helpful
- Community representation
- I feel like I'm being heard
- Presenters, contributions, system voice
- NE FYSPRT representatives and communication with the State
- Community provider presenters
- Issues brought up are brought back to the statewide FYSPRT to effect change
- Well organized and welcoming
- Continuing to attempt to get information to the community.
- Being a strong advocate for youth and the system

13. What could we do better?

- Getting the word out to the community that FYSPRT exists.
- I really think that FYSPRT would benefit from having an intern. I think the fresh ideas that could come from an intern would be huge. Also it would be a right learning experience for the intern.
- Find a way to make meeting more accessible for rural communities and youth
- Change meeting time to weekend or evenings
